VON BIERICH'S

(Continued from First Page.)

German squadron to Manila, and that the American squadron was to be sent to Manila. The German squadron was to be sent to Manila, and the American squadron was to be sent to Manila. The German squadron was to be sent to Manila, and the American squadron was to be sent to Manila.

WANTING COALING STATION.

It was due to negotiations with Germany, in order to obtain a coaling station in the Pacific, that a number of our vessels were sent to Manila. It is reported that those who sent the vessels to Manila, without the knowledge of the Foreign Office, have been severely reprimanded by the German government, but not yet by the people of the United States, as the German incident again demonstrates.

Force of this editorial article is based on the fact that the paper which it was published was, from the outbreak of the war with Spain, the most virulent enemies of the United States. The Volks Zeitung and other German papers advise Germans not to believe the importance of hostilities, accompanying the war on the part of the United States, and in the period preceding the German war.

ON BUELOW ATTACKED. The German press has been the only one to attack the Cabinet, and to attack the Foreign Minister, von Buelow, and to reiterate the charge that he is pursuing a vacillating policy.

North German Gazette, for example, at the wrong time, and at the wrong time, and at the wrong time.

ers continue the campaign, insisting that we must remain a world power, and that we must not allow ourselves to be interfered with by any other power. The great majority, however, are of the opinion that a reasonable tone over the German incident.

Coghlan incident, and in affairs as they have been developing in Samoa. While visiting at Wartburg, the Emperor had full reports sent to him regarding both matters, including a copy of the satirical ditty which Captain Coghlan sang at the conclusion of his speech at the Union League Club in New York, and which His Majesty read with great amusement.

NEW ALLIANCE MENTIONED.

Universal attention has been attracted in political circles by the prominence given in the semi-official North German Allgemeine Zeitung to an endorsement of the late Prince Bismarck's German alliance. The Kroug Zeitung gives the subject equal prominence, but takes exception to the recommendation, saying that before any such alliance can be thought of, Samoa and other troublesome points must be out of the way.

RIOTING IN IDAHO

(Continued from First Page.)

van had warning of the coming of the mob, and left the mill, and took to the hills. They have not been seen since. Union men working in the Last Chance left the mine this afternoon, presumably to take part in the riot.

The present strike in the Coeur d'Alene mining district began about ten days ago, and is directed principally against the Bunker Hill and Sullivan Mine at Wardner, where non-union men are employed. The demands of the miners for increased wages were met by the mine owners, but the miners demanded that the union be recognized, and that non-union men be discharged.

The mine-owners refused to do, and the Last Chance mine closed today. The Bunker Hill and Sullivan,

however, continued to run with non-union men until to-day, when they were driven out.

TWO MORE FOR SOUTHERN.

ALABAMA RAILWAY AND S. C. & GA. TOOK IN BIG SYSTEM.

(By Telegraph to Virginian-Pilot.)

New York, April 29.—At a meeting of the Board of Directors of the Alabama railway to-day, new officers were elected, who, in each case, at present also occupy similar positions in the Southern railway. Vice-President James G. Leiper, General Manager Samuel Hunt

and Secretary and Treasurer J. J. Collier resigned, and the following officers were elected:

President, Samuel Spencer; Vice-President, A. B. Andrews; Raleigh, N. C.; Second Vice-President, W. W. Finley, Washington, D. C.; Third Vice-President, Washington, D. C.; Secretary, Joseph P. Hill, New York, and Treasurer, H. C. Amley, Washington, D. C.

ANOTHER DEAL CONSUMMATED.

Charleston, S. C., April 29.—The deal between the Southern railway and the South Carolina and Georgia, for the purchase of the latter railroad, has been consummated and a formal announcement is expected to-morrow. Vice-

President Andrews and Attorney Abney, of the Southern, are in Charleston to-day, at a meeting of the stockholders of the South Carolina and Georgia. The terms of the purchase were not given out. It is understood the Southern will enter into control at once and probably put on a steamship line to the West Indies.

JURISDICTION EXTENDED.

It was announced here to-day that the Southern railway has leased the property and franchise of the South Carolina and Georgia railroad, and that property will hereafter be operated as the Charleston division of the Southern railway. The jurisdiction of the president and vice-president of the Southern

railway is extended over the new property. The South Carolina and Georgia Extension railway, which was formerly in the possession of the South Carolina and Georgia railroad, is not included in the lease and is left to be operated independently.

Fatal Powder Mill Explosion.

Woodbury, N. J., April 28.—The powder press at Dupont Powder Mill at Carney's Point, N. J., a few miles from here, exploded at 2 o'clock this afternoon, killing four men and injuring three others. The explosion occurred during an experiment with a government giant torpedo.

Corset Talk.

Women philosophize to-day—and reasonably too. They know 'tis far better to have a Corset unchangeable in its shape—that gives precisely the form best suited to her size and weight, then it is to have one conforming to the figure and stretching into ugliness. The R. & G. Corset doesn't do that way, because each one is subjected to a pressure of 600 pounds—a strain greater than any amount of wear can ever give.

We have them in Short, Medium and Long Waists, from

50c. to \$2.50.

We have the American Lady Corset and other popular brands too.

Black Goods.

If you hav'nt supplied your needs in Black Goods yet To-morrow is the opportune time to do so. We make a specialty of Black Goods, and we especially desire you to see them.

B. Briestley's Silk Warp Henriettes, from England, are of the highest grade, \$1.50, \$1.75 and \$2.00 a yard.

Gold Medal Serges, Poplins and Armures, are of the highest grade, and can be depended upon in the black and durability.

45-inch Poplin, that fashionable fabric, 75c.

36-inch Fine Weave Serge, 45c.

42-inch Covert Serge, all wool, 50c.

38-inch Reversible Mohair Brilliantine, silk lustre, 59c.
